DETAILED ACTION

(1) Applicant's arguments, see page 9, paragraphs 1-3, filed 2/16/2007, with respect to the abstract, and claims 1-10 and 12 have been fully considered and are persuasive. The rejections have been withdrawn.

Original Rejection

(2) 5. Claims 4, 5, and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Further in claim 4, the R^{1'2'4'5} groups are recited as being C₄ or C₅ aryls, although the smallest aryl possible is C₆. This is also found in claims 5 and 8.

Response to Arguments

(3) Applicants argue that their definition of aryl is set forth in the specification, and that C₅ aryls are possible because one of the carbon atoms can be replaced with a heteroatom. This is found to be not persuasive because even though in the specification it teaches heteroaromatics, nowhere are heteroaromatics recited in the claims. While it is true that the claims may be read in light of the specification, it is improper to read limitations of the specification into the claims In re Yamato, 222 USPQ 93; In re Wilson, 149 USPQ 523; Graver Tank v. Linde Air Products Co. 80 USPQ 451 (Supreme Court).

(4) THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

(5) Any inquiry concerning this communication or earlier communications from the examiner should be directed to James E. McDonough whose telephone number is (571)272-6398. The examiner can normally be reached on 8:30am-5:00pm.
